-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Objections*

Claim 35 is objected to because of the following informalities: it is not clear if "the second surface" (line 1) is of the structure or of the tube-like portion. Clarification is required.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 30-32 and 35 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over SAUNDERS-5,780,807.

As to claims 30-32 and 35, SAUNDERS (Figs. 1-6; col. 7, lines 2-5; col. 8, lines 43-54; col. 9, lines 26-27) discloses laser-cut stent 10 having a biocompatible coating or protective coatings as claimed. Inherently, the biocompatible coating or the protecting coating is required on the outer surface/1<sup>st</sup> surface of stent 10 is required. Alternatively, it would have been obvious to one of ordinary skill in the art to provide SAUNDERS stent 10 a coating for release a bioactive material.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 33-34 is rejected under 35 U.S.C. 103(a) as being unpatentable over SAUNDERS-5,780,807.

SAUNDERS discloses stent 10 having substantially all limitation of the medical device as claimed, except for a second coating on the second surface/inner surface of stent 10. Providing a coating on an inner surface/second surface of a stent to avoid blood clotting in the lumen of the stent is well known in the art. It would have been obvious to one of ordinary skill in the art at the time the invention was made to provide a second coating on the inner surface/second surface of stent 10 so as to avoid blood clotting in the lumen of stent 10.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vy Q. Bui whose telephone number is 703-306-3420. The examiner can normally be reached on Monday-Thursday.
